

MAVBRIDGE™ FOR NONPROFITS

Nonprofit organizations need a way to efficiently process donations and respond to their donors quickly.

Exceeding Expectations

MAVBRIDGE™ FOR NONPROFITS

One-Touch Processing

Eliminates document prep and unnecessary movement of paper throughout your operation. Open, extract, and scan all transaction types in one simple step.

Powerful Workflow

Keeps it simple with easy-to-use modules that integrate seamlessly into efficient and cost-effective solutions.

Donor Data Capture

Captures key donor information quickly and precisely to ensure accurate and timely donations acknowledgements.

Data Validation

Leverages built-in functionality to validate donor information in real-time using finder and prospect tables.

Donor Database

Interfaces to virtually any external donor database, including products from Blackbaud, Donor Direct, Amergent, Bernard, and others.

"The beauty of the system is just how adaptable it is and how particularly well it handles the variability of the transactions we receive."

"Mavro saw us as an individual client with unique needs, not just as another customer. Mavro was able to do what no other software vendor could do for the price."

"The hallmark of the system Mavro designed for us is flexibility. We have an extremely complicated payment stream with multiple payment methods. The Mavro system handles all of this with ease."

Some of our Satisfied Customers

Flexible Import

Connects to any scanner or transport. Imports images and data from fax servers, emails, transaction files, and a wide variety of other sources.

Document Classification

Automatically identifies documents using an intelligent combination of OCR, barcode, mark sense, and other image characteristics.

Image Enhancement

Improves image readability and enhances critical document areas while reducing image file size.

Interactive OCR

Boosts CAR/LAR, OCR, OMR, and barcode reading with a unique interactive process that drastically reduces keying labor.

Quality Review

Allows users to flip through documents to check transaction boundaries, image quality, index field values, and batch integrity.

Check 21 Support

Eliminates encoding and having to courier checks to your bank. Take advantage of lower bank fees and accelerated funds availability.

CONNECT™ Web Portal

Provides simple-to-use, yet immensely powerful, document and data management. Users can easily search for archived images and data, view stored reports, or download saved extract files. Configurable workflows enable any correspondence or other documents to be automatically routed to operator work queues.

Dashboard

Provides automatic monitoring and event reporting along with visual status checking, so that you always know exactly how your system is performing at any time.

Real-Time Status

Enables managers to evaluate resource utilization at a glance and makes sure that all images and data are being successfully processed.

Statistics

Gives users the information needed to make productivity improvements. Tracks the progress you made today, last week, last month, or last year.

Workflow Monitor

Continuously tracks every step in your system and ensures that everything is running smoothly. Alerts supervisors immediately if attention is required.

MAVRO
IMAGING

Whether looking to make a small improvement to your existing donation processing system or completely refresh your entire operation, Mavro delivers expertise, flexibility, innovation, and affordability. Give us a call and see how we can help improve your operation and donor relationships.
