

CONNECT™ WEB PORTAL

Access Anywhere, Anytime

Image-based payment and document processing systems deliver many benefits, but only if you can easily access what you need, when you need it.

MavBridge Connect™ is a web-based portal for researching documents and captured transactions, in addition to a messaging system for exception transaction handling.

Customizable reports and PDF document creation make it more than your average archive.

With Connect™, securely accessing document images and their associated data is easier and more efficient than ever before

Image Retrieval Made Simple

Researchers can now retrieve stored images and data faster and more reliably than ever before. Advanced search using multiple criteria precisely locates the exact data you need.

Digital Mailroom Workflow

Connect™ allows companies to expand their workflows to other departments and further digitize manual paper distribution, a trend fueled by work-from-home requirements.

Easily Handle Web Exceptions

Ensures same day decisioning across the enterprise with intuitive messaging. This saves postage and courier costs, minimizes delays and errors, and improves client experience.

Features & Benefits:

- ✓ Drive new revenue from lockbox clients
- ✓ Foster long-term relationships with your clients
- ✓ Improve customer service with 24/7 access, real-time notification and interaction
- ✓ Reduce risk with secure access and redaction of private data
- ✓ Eliminate labor required for paper or CD distributions
- ✓ Easily add new workflows as future requirements grow or change

DIGITIZING MAIL, OPTIMIZING WORKFLOWS
