

MAVBRIDGE™ SOFTWARE SUITE

Automated Document and Remittance Processing

MavBridge software suite was developed by Mavro Imaging to integrate payment, forms and document processing. MavBridge is flexible to scale from hundreds to over a million transactions per day, regardless if the documents are electronic or paper, simple or complex.

Connect Documents, Data and Departments Streamline Workflows for Improved Access and Actioning

Features & Benefits

- One-Touch Processing eliminates manual steps to increase throughput and cost savings.
- Import images and data from any scanner, server, email and electronic transaction files.
- Automated tools such as Image Enhancement, Recognition Suite and Smart Batching easily handle difficult documents.
- Smart Track physically tracks documents and payments throughout your workflow to eliminate risk.
- Dashboard provides real-time visibility of employee productivity and system performance.
- Mavro's secure Connect™ Web Portal gives quick access to your images from anywhere, at any time.
- Mavro's continuous innovation and development future-proof your system.
- Free software upgrades save thousands of dollars and significant time that can be allocated to other projects.

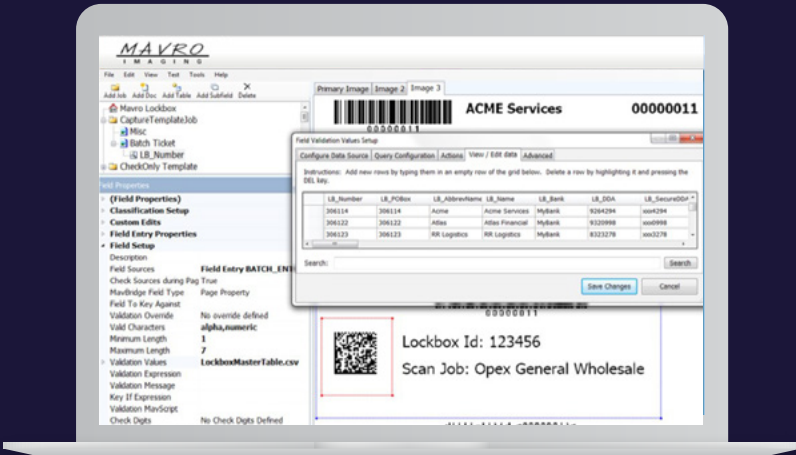

Dedicated Support, Proven Technology

The expert support of Mavro application engineers along with our highly innovative development team is a combination trusted by industry leaders.

“With the inherent flexibility of MavBridge, we were able to optimize each process resulting in one of the most efficient operations in the country.”

Pat Naples
 Manager Operations, PSE&G

Modular Means Just the Right-Fit

MavBridge is the ultimate in efficiency. Choose from an extensive library of modules that are seamlessly connected to create the optimal, automated solution. Sized to fit your exact business needs, minimize cost and maximize ROI, MavBridge is easily configured without custom code.

Increase the Possibilities

As your needs increase and requirements change, MavBridge functionality easily scales with them. The power and flexibility of the software helps you pivot to further enhance efficiency, extend functionality to other departments, and enjoy added benefits across the organization.

MAVBRIDGE™ MAKES EFFICIENCY EASY
